

## Ascent Junk and Hauling

**AFFF / PFAS Consolidation & Disposal  
Coordination**

*Serving Bexar County and Surrounding Areas*

Ascent Junk and Hauling supports fire departments by serving as a single point of coordination for AFFF/PFAS consolidation, vendor management, scheduling, and documentation. We work alongside appropriately licensed disposal providers to reduce administrative burden and ensure materials are prepared for compliant disposal pathways.

### AFFF / PFAS Services

- On-site AFFF/PFAS consolidation and preparation
- Transfer of smaller containers into compliant 55-gallon drums
- Disposal coordinated with licensed hazardous chemical facilities
- Vendor scheduling and logistics facilitation

### Additional Facility Cleanout & Junk Removal Services

- Surplus furniture & equipment removal
- Non-hazardous junk & debris removal
- Tire collection & removal
- Station and storage-area cleanouts coordinated alongside AFFF/PFAS remediation projects

## Why Fire Departments Work with Ascent

- Single point of coordination
- Reduced Administrative Workload
- Proven, repeatable process
- Coordination with licensed disposal services
- Trusted through peer recommendation
- Ability to combine AFFF/PFAS coordination and facility cleanouts in one mobilization
